Symmetry
What is it?

1. The dotted line is a line of symmetry.
2. cut out the shape and fold along the dotted line.
3. spot that both the sides match UP.

Spotting symmetry

1. Cut out the following shapes.
2. Try and fold them in half so that both sides match up.
3. Now unfold them and draw a line along the fold line.
4. This is a line of symmetry.
5. Do any of these shapes have more than one line of Symmetry?

Square
rectangle

Rhombus

circle

triangle

| Symmetry in Letters + Numbe |  |  |  |  |  |  |  |

1. Which of these letters has a line of symmetry?
2. Write out your name.
3. Which of the letters in your name has a line of symmetry?

| 0 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |

4. Which of these numbers has a line of symmetry?
